

Now TGA approved!  
**Promoitalia Absorbable Threads**

Promoitalia Absorbable Threads a new scientific innovation developed and produced in Italy has received the go ahead from the Therapeutic Goods Administration for safe usage in Australia.

The product that is fully absorbable within 12 months is the latest cosmetic technology used worldwide by cosmetic and plastic surgeons for facial contouring and augmentation. It is a breakthrough facial threading procedure done under local anaesthetic and its revitalizing elements will visibly enhance the facial soft tissue and delay the aging process.
