

SKINFILL DERMAL FILLER NOW AVAILABLE IN NEW ZEALAND

SkinFill is a CE approved and patented dermal filler created in Italy by Promolitalia and it is now available in New Zealand and will be available soon in Australia!

Its unique combination of technologies significantly slows down cell degeneration and it gives durability and a filling-up effect to filler implants. It is both manageable and easy to use by the practitioner, it gives effective volumetric redefinition and its long-lasting results provide an affordable solution to all types of wrinkles.
